

Heavy metal, floor design Diesel Creative Team

With its unfinished, roughly artisanal appearance and visible welds and its familiar, vintage-inspired design, Heavy Metal is a lamp with two souls and an absolutely unique personality.

The metal used to make it undergoes a special treatment which alters its surface in a different way every time and warms up its burnished colour with shades of blue, green and ochre. The wrap around, intimate effect of its bottom up light is also warm.

Heavy Metal is available as a table lamp and a floor version in which the lampshade is supported by a three-legged structure with two practical circular storage surfaces - ideal near a sofa or an armchair.

Heavy metal, floor technical info

Description

Floor lamp with direct and indirect light. Steel base and diffuser, which undergo several acid-etching processes and are subsequently coated with transparent liquid paint. The turning is achieved with artisanal mechanical machining; the irregular welds are hand-made forming an integral part of the decoration. The three rods, which support the diffuser facing down, the same as the one used in the table lamp. These are interrupted by two round plates, which act as supports. A fixed one at the bottom, which also acts as a ballast base, and the other removable and silk-screen printed on one side with the historic Mohican logo "Diesel only the brave". The plate shielding the light source from the bottom is made of sand-blasted, tempered and silk-screen printed yellow glass; electrical cable and dimmer both black.

Materials: Acid-etched steel and frosted glass

Colours: Black

Brightness

semi-diffused and direct up light

Model

Heavy metal

Weight

net kg: 14,80
gross kg: 18,70

Packing

vol. m³: 0,122
n.boxes: 3

Bulbs

- halogen energy saver 1x230W R7s (118mm)
with dimmer included

Cables

Diesel Creative Team

In 2009, Foscarini signed a partnership agreement with Diesel as part of the "Home Collection" home furnishings and lifestyle project. This partnership has given Foscarini the opportunity to make contact with a new target clientele and explore new lifestyles and furnishing trends through a collection conceived by Diesel for its own target group: "Diesel Living with Foscarini".

The Diesel Living with Foscarini collection speaks a range of different languages - from rock to pop, industrial to vintage, graphics to art - to illustrate the unmistakable Diesel lifestyle. Ironic, transgressive, eclectic, incandescent, the collection is made up of over 40 different lamp models. The collection is structured into a range of forms, materials and intended uses, lending itself to unexpected and unconventional settings, from domestic to public environments, always with a strong personality. The materials selected and researched for Foscarini, and perhaps even more so in the Diesel Living with Foscarini collection, are of the utmost importance. Materials which have never before been used in the lighting industry are the collection's added value.
