

# VOLTIGE

**Design by**  
Didier Gomez

## Description

With the model Voltige, Didier Gomez revisits the wing chair, gesturing towards a kind of contemporary archetype. From the wing chair, first seen around 1720, he retains the padded back, the cushioned seat and the low set-back armrests (to make space for the panniered skirts of the time). The armrests, which are bent into a concave curve, bring a note of softness which contrasts with the taut lines of the structure and cushion. The folded steel 'corner' feet succeed in 'twisting' the reinterpretation, which is brought to full completion by the use of quirky contemporary covering materials.

## Technical Specifications

### CONSTRUCTION

Panels of particleboard clad in polyurethane foam 50 kg/m<sup>3</sup> - 6.3 kPa and polyester quilting 110 g/m<sup>2</sup>. Matt black or matt white lacquered folded steel 'corner' feet.

### COMFORT

Suspension of seat: steel frame with elastic webbing mounted across its depth to avoid sideways tipping. Individual back suspension: horizontal elastic webbing. Seat cushions in multi-density high resilience polyurethane Bultex foam, dominant density 36 kg/m<sup>3</sup> - 2.8 kPa, clad in flexible Bultex foam 38 kg/m<sup>3</sup> - 2.3 kPa and polyester quilting 110 g/m<sup>2</sup>. Integral back cushion in multi-density Bultex foam, dominant density 26 kg/m<sup>3</sup> - 1.4 kPa.

### MAKING-UP

Baguette stitching on both

## ARMCHAIR
