ARC— FOSTER+PARTNERS 2010

1—
2

A sculptural table, inspired by the technostructures. The table Arc embodies the innovative concepts which distinguish it. The base shape is inspired by the technostructures currently used in modern building: a new “light” cement which mixes colour and a special fibrous material obtaining resistant structures with a low specific weight. Arc is available with round and oval tops which come in glass bevelled at the edge.

FEATURES

A series of tables that stand out due to the base’s tent-like structure which uses an innovative mix of cement and fibre, moulded in a single block and mass coloured. This material permits the creation of complex shapes combining resistance and elasticity with innovative concepts such as the fact that the material can be totally recycled and its manufacture is of low environmental impact.

Dimensions in millimeters and inches. The right to discontinue and make changes is reserved. This information is based on the latest product information available at the time of printing.

FINISHES

BASE FINISHES

white - grey - bronze - black

TOP FINISHES

extralight transparent glass

The top th 12 mm come with bevel for articles **ATT1 - ATT2 - ATT3 - ATT4 - ATO1 - ATO3 - ATO4**.

The glass top for article **ATO2** comes always without bevel.

TECHNICAL INFORMATION

BASE

In cement and organic fibre composite, moulded in a single block and coloured during mixing.

CRYSTAL TOP

Transparent extra light tempered crystal 12 mm th with bevelling (not included ATO2).

FEET

In non slip plastic material.

DIMENSIONS

round tables

∅ 1300 H 730
